PROFILE

Enthusiastic and detail-oriented Frontend Developer with a keen interest in crafting responsive and visually appealing web applications using React.js. Possesses a foundational understanding of Node.js, complemented by strong problem-solving skills derived from a solid grasp of Data Structures and Algorithms (DSA). Excited about leveraging technical expertise to contribute to dynamic and collaborative projects.

PROJECTS

Notes App

- A notes app where we can manage our notes. we can add a new note of specific color in this app by choosing a color. We can delete a note in this app. and if we refresh the screen then notes do not go anywhere.
- Live Site: https://harsh-mamgai.github.io/Notes-app/
- GitHub Repository: https://github.com/Harsh-Mamgai/Notes-app

Music App

- A music app where we can listen the songs of a particular singer. by searching the name of the singer whose songs we want to listen.
- Live Site: https://harsh-mamgai.github.io/Music-app/
- GitHub Repository: https://github.com/Harsh-Mamgai/Music-app

News Website

- A dynamic news website where we can find the news on various things. we can search the news on the topic on which we want to know the news. it uses news api.
- Live Site: https://harsh-mamgai.github.io/News-Website/
- GitHub Repository: https://github.com/Harsh-Mamgai/News-Website

Netflix Clone

- Designed and implemented a static clone of the Netflix interface using HTML and CSS and employed responsive design techniques to ensure seamless user experiences across various screen sizes.
- Live Site: https://harsh-mamgai.github.io/Netflix_clone/
- GitHub Repository: https://github.com/Harsh-Mamgai/Netflix_clone
